Subject: RE: Request for time-sensitive website assistance

Nancy and Matt,

Here are the actions that need to occur.

1. Put in redirects related to CC
2. Re start apache web servers one at a time
3. Test some important CC related URLs

Once the global redirect is in place (1), the CC site will no longer be findable to the public and instead the visitors will go to
<https://www.epa.gov/sites/production/files/signpost/cc.html>

But we have a bit of a circle here—the custom page is supposed to link to the press release, and the press release has to be published for that link to work.

So Nancy do you want us to add the press release link AFTER the press release is live to the custom page?

Thanks
Susan Fagan

hi Nancy

lin can give you the details but my understanding is the technical changes can be made quickly. I assume we publish once the changes are made- are you hearing otherwise?

Hi there –

So we have this now – just wondering how we should coordinate timing – as we need to send the press release once everything is done and then that link needs to go in the custom 404 notice.

Do we have a sense of timing?

Thanks much

ng

Subject: Request for time-sensitive website assistance

Steve, Harvey and Matt,

As discussed with Nancy, we would like the content at the links below removed and archived as soon as possible.

The removed climate change pages will be replaced with a custom page that will explain why the change is happening, include a link to the January 19, 2017 snapshot of the EPA website, and a link to the press release we'll be putting out.

The clean power plan pages will be redirected to the newly posted energy independence pages.

We appreciate your assistance in this time-sensitive matter.

Please let us know if you have questions.

Thank you
